Education

University of California, Irvine

Expected: June 2020

B.S. IN COMPUTER SCIENCE

GPA: 3.3

- Relevant Coursework: Programming with Software Libraries, Intermediate Programming, Introduction to Software Engineering, Boolean Algebra & Logic

Leadership & Activities

AT&T SHAPE Hackathon, Emotional Robot

Los Angeles, CA

TECHNOLOGIES: JAVASCRIPT - NODEJS - IBM WATSON API

July 2017

- An emotional companion that detects a user's mood responding with unique speech and movements.
- Using IBM's Tone Analyzer API and a user's remark, I devised an algorithm to respond accurately.
- Wrote the NodeJS app which sent and recieved data from IBM's API to an android device on our robot.

Secretary of ICS Student Council

Irvine, CA

RESPONSIBILITIES: SOCIAL MEDIA - EVENT PLANNING - MARKETING - PHOTOGRAPHY

June 2017 - Present

- Director of all social media accounts, responsible for sending a weekly newsletter to 1,200 subscribers.
